

Fees

We strive to provide exceptional care with affordable fees. Our fees are significantly lower than those recommended by our professional bodies to ensure our services are accessible. Contact us for our fee schedule.

Medicare

With a GP referral you can access our paediatrician or allied health services using Medicare rebates. Psychology services attract rebates via the Better Access to Mental Health, Chronic Disease Management and Helping Children with Autism Treatment initiatives.

Helping Children with Autism (DSS)

We are a registered provider with the Department of Social Services under the Helping Children with Autism government funding initiative. This entitles families of a child with ASD to receive up to \$12000 for Early Intervention over a period of two years.

National Disability Insurance Scheme

We provide services to families who self manage their funds or use a third party to manage their funds. We can also assist with the planning and application process for families commencing the NDIS process.

Private Health Rebates

Our services attract rebates from many private health funds. Contact your fund to check whether you are covered.

About us

Our team is committed to helping families reach exceptional outcomes by tailoring services to suit each family's individual needs.

NCCD was founded by Amanda Abel, a paediatric psychologist, Clinical Associate of Swinburne University and member of the Australian Psychological Society. Amanda has over 16 years' experience working with children in a variety of roles including as an ABA therapist and supervisor, and as a psychologist in early intervention, government, community, educational, NGO, clinical and private settings. Her commitment to improving the quality of life for children with Autism Spectrum Disorders and other challenges led her to create an affordable, flexible and transparent clinic for families wanting the highest quality allied health and medical care for their children.

NORTHERN CENTRE FOR CHILD DEVELOPMENT

Multidisciplinary Paediatric Care

We provide ongoing, streamlined care under one roof to make it easier for families to reach exceptional outcomes. Our highly skilled team consists of:

- Paediatric psychologists
- Paediatrician
- Neuropsychologist
- Occupational therapists
- Speech pathologist
- ABA supervisors
- ABA therapists

ASD Assessments

We provide a multidisciplinary 'gold standard' assessment process to determine whether your child meets criteria for a diagnosis of ASD. The assessment process is efficient and affordable with individualized fees.

During the assessment process, each child is assessed by our:

- Paediatrician;
- Psychologist; and
- Speech pathologist.

We also include feedback at no additional cost on completion of the assessment process, and a follow up appointment after one month, to check in with how you are handling the diagnosis and to further assist with referrals or ongoing intervention.

Services

- Paediatric and parent psychological counselling
- Paediatric medical care for babies, children and teenagers
- Early intervention
- Psychological and neuropsychological assessment
- Applied Behaviour Analysis
- Occupational therapy
- Speech pathology
- Circle of Security™ parenting
- Support groups
- Behavioural and academic support for parents and schools
